## The Red Ink Appeal

---

**MEMBERS** of the College are urgently requested to place themselves in communication with the Registrar, when first locating, or when changing their address, that such location or address may be duly noted in the Register.

Trifling in itself, and yet of moment to the College, this will enable the Executive to place at the disposal of the profession a Register which, for purposes of reference, will have unquestionable merit.

The exhibition of such courtesy will be greatly appreciated and will not fail to meet with appropriate acknowledgment.

## Announcement for the Academic Year 1919-1920

---

“The College of Physicians and Surgeons of Ontario” is the name adopted by the Medical Profession of the Province of Ontario in its corporate capacity. Every legally qualified medical practitioner in the Province is a member of this College. It is not an institution for the teaching of medicine.

The Medical Profession of Ontario was first incorporated under this name by an Act of Parliament of Canada, passed in 1866. This Act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the Profession in this Province are regulated by an Act passed in 1874 (37 Vic., Cap. 30), commonly known as the “Ontario Medical Act,” and further amended in 1887, 1891, 1893, 1895, 1902, 1905, 1914-1915, and 1918-1919.

By this Act, the “Council of the College of Physicians and Surgeons of Ontario” is empowered and directed to enact by-laws for the regulation of all matters connected with medical education; for the admission and enrolment of students of medicine; for determining from time to time the curriculum of the studies to be pursued by them, and to appoint a Board of Examiners, before whom all candidates must pass a satisfactory examination before they can be enrolled as members of the College, and thus be legally qualified to practise their profession in the Province of Ontario.

The Council, moreover, has power and authority conferred upon it by this Act to fix the terms upon which practitioners of medicine, duly qualified in other countries, may be admitted as members of the College of Physicians and Surgeons of Ontario, this being the only mode in which they can become legally entitled to practise their profession in this Province.

For the information and guidance of students of medicine, the Profession, and the public generally, the Council, in conformity with the Ontario Medical Act, hereby promulgates for the year 1919-1920 the Regulations which herein follow, repealing all others heretofore in force.

All changes in the medical curriculum shall take effect at the next ensuing annual examinations.

8. The Examiner shall return the schedule to the Registrar, with values inserted, within fifteen days of the close of examinations on his subject. From these values a general schedule shall be prepared by a chartered accountant associated with the Registrar, which schedule shall be inspected and signed by the President before the results are announced.

9. The Registrar, in notifying the members of the Board of Examiners, will direct attention to the following instructions, a copy of which he shall enclose.

(a) In preparation of questions Examiners will confine themselves to the principles common to the standard text-books.

(b) In referring to diseases or operations of any kind, the name of such disease or operation most commonly in use must be employed, and the Examiners shall refrain as far as possible from the use of proper names and ambiguous questions.

(c) In the preparation of the paper, opposite each question shall be placed the value of a full and correct answer thereof—the whole of such numbers to amount to 100.

(d) In the reading of papers the Examiners shall mark in colored pencil what they regard as the numerical value of the answers given for each question opposite the same.

(e) The oral and clinical examinations are to be made as practical, demonstrative or clinical as possible, and shall occupy at least thirty minutes.

(f) Candidates shall be known to the Examiners by numbers only.

The Examiners shall, on the completion of their work, conjointly certify to the schedules of marks and books. Their report, including schedules of marks and books completed and duly certified, shall be final, and shall forthwith be filed with the Registrar.

11. The Examiners in each subject shall meet at a convenient point to prepare the examination papers, and shall send each paper to the Registrar by registered mail at least two weeks before the date of examination. (The Examiners shall approve of proofs before printing.)

12. As no appeal is now permitted from the findings of the Board, the President, with the Vice-President as his alternate, shall attend the usual meeting held by the Board of Examiners preparatory to handing in the Schedule of Examination Marks to the Registrar for consultation and consideration of said Schedule with the Examiners.

## SECTION V.

### **Examinations—Rules for Candidates in the Examination Hall.**

1. Each candidate shall receive from the Registrar a programme containing a list of subjects upon which the candidate is to be examined, and it will admit him to the examination hall during the progress of the examination upon such subjects, but at no other time.

2. Candidates must write the answers to the questions given by the Examiners legibly and neatly upon one side of each page of a book, which will be furnished to each candidate, and the num-

ber of each question, as it appears in the examination paper, is to be put at the head of the answer to it, in such a manner as to have the first page facing outward to the view; the papers then to be folded once and enclosed in an envelope, on the outside of which each candidate is to write his name. The packet is then to be handed to the Registrar or his deputy. No signature, number or sign, by which the writer could be recognized by the Examiner, is to be written or marked on any portion of the book to be enclosed in the envelope.

3. The questions of the Examiners in the Homeopathic subjects will be handed, at the beginning of the general examination on the same subject, by the Registrar or Deputy, to such candidates as shall have given him notice in accordance with Section III., sub. sec. 7.

They shall write the answers to these questions in the same hall with the other candidates, and hand their papers, when finished, to the Registrar in the same manner as provided for other candidates, to be by him given for examination to the Homeopathic members of the Board of Examiners appointed to examine on that subject.

4. No candidate will be allowed to leave the hall after the questions are given out, until his answers have been handed in.

5. No one shall be allowed in the hall during the hours of examination, except those who are actually undergoing examination, or members of the Council or officials connected therewith.

6. Any candidate who may have brought any book or reference paper into the hall must deposit it with the Registrar before the examination begins.

7. Candidates must not communicate with each other while examinations are going on by writing, signs, words, or in any manner whatever.

8. Candidates must at all times bear themselves toward the Registrar or Deputy and Examiners with the utmost deference and respect; and they will not be permitted in any manner to manifest approbation or disapprobation of any member of the Board of Examiners during the progress of the examination.

9. Candidates must not only conduct themselves with decorum while an examination is going on, but they will be held strictly responsible for any impropriety of conduct during the whole progress both of the written and the oral examinations.

10. Any infraction of the above rules will lead to the exclusion of the candidate who is guilty of it from the remainder of the examination; and he will not receive credit for any examina-

tion papers which may have been handed to the Registrar or Deputy previous to his being detected in such misconduct.

11. And he may be debarred from further privileges at the discretion of the Council.

At the first meeting of the new Council the Registrar shall call the Council to order, read over the names of members, and request it to elect a Committee on Credentials, and upon the reception and adoption of the Committee's Report the Registrar shall call upon the Council to elect a President.

2. The Officers shall be elected after nomination by open vote, the vote being taken on the nominees in the order in which they were nominated. In the case of an equality of votes, the presiding officer, as on all other questions, shall give the casting vote, provided an equality of votes for the office of President shall be decided by the member present, representing the greatest number of registered practitioners. When only one candidate is nominated it shall be the duty of the presiding officer to declare him duly elected.

3. The first business of the annual session, after the organization of the Council, shall be the election of officers and the appointment of a Committee to nominate the standing committees.

#### ORDERS OF THE DAY

4. The general order of business for the day shall be as follows:

(a) Calling names of members and marking them as present or absent.

(b) Reading of the Minutes.

(c) Reading of communications, petitions, etc.

All resolutions and reports must be taken up as they appear in the Order of the Day, and no variation of the foregoing order of business shall be permitted, except by consent of the Council.

#### RULES OF ORDER

5. When any member is about to speak in debate he shall rise in his place and address the presiding officer, confining himself to the question under debate.

6. When two or more members rise at the same time the presiding officer shall name the member who is first to speak.

7. No member, while speaking, shall be interrupted by another, except upon a point of order, or for the purpose of explanation. The member so rising shall confine himself strictly to the point of order, or the explanation.

8. If any member, in speaking or otherwise, transgress the rules, the presiding officer shall, or any member may, call him to order, in which case the member so called shall immediately sit down, unless permitted to explain.

9. No member shall speak more than once upon any motion, except the proposer thereof, who shall be permitted to reply; nor shall any member speak longer than a quarter of an hour on the same question without the permission of the Council, except in explanation, and he must then not introduce new matter.

10. Any member of the Council may require the question under discussion to be read at any time of the debate, but not so as to interrupt the speaker.

11. When the matter under consideration contains distinct propositions, under the request of any member the vote upon each proposition shall be taken separately.

12. No member shall speak to any question after the same has been put by the presiding officer.

13. Notices shall be given of all motions for introducing new matters other than matters of privilege and petitions at a previous meeting to that at which it comes up for discussion, unless dispensed with by a two-thirds vote of the members present. Any matter when once decided by the Council shall not be reintroduced during that session, unless by a two-thirds vote of the Council then present.

14. A motion must be put in writing and seconded before it is stated by the presiding officer, and then shall be disposed of only by a vote of the Council, unless the mover, by permission of the Council, withdraws it. Every member present shall vote unless excused by the Council.

15. At the close of the annual session the minutes of the last meeting shall be read, approved and signed by the presiding officer.

16. In all cases not provided for by these rules, resort shall be had to the procedure of Parliament.

17. The Registrar shall make a list of all motions and reports on the table in the order in which they were received, which shall be considered under the heading "General Orders of the Day."

18. The presiding officer shall preserve order and decorum during each session of the Council, and protect the members in the enjoyment of their rights and privileges. He shall decide all questions of order, giving his reasons for such decision, and citing the rule applicable to the case, subject, however, to an appeal to the Council, and in case of an appeal it shall be put by the presiding officer in the following words: "Shall the chair be sustained?"

19. All questions of order upon which an appeal has been made from the decision of the presiding officer shall be decided by a direct vote of the Council without debate.

20. The presiding officer shall declare all votes, but, if any members demand it, such presiding officer, without further debate on the question, shall require the members voting in the affirmative and negative, respectively, to stand until they are counted, and he shall then declare the result. At the request of any two members the yeas and nays shall be taken and recorded.

21. The presiding officer shall not give any other than a casting vote, but may express his opinion on any subject under debate.

22. The presiding officer shall consider a motion to adjourn as always in order; but no second motion to the same effect shall be made until after some intermediate business has been transacted. This motion must be put without debate.

23. No motion except to adjourn shall be introduced unless it be written in ink and contains the names of the mover and seconder.

24. Every motion shall be read by the mover, standing in his place; it shall then be handed to the presiding officer, who shall read and submit it to the Council.

25. When a question is under debate, no other motion shall be entertained except a motion to amend, to commit, to postpone, or to lay on the table, or a motion for the previous question, or for adjournment, which last shall always be in order except when the Council is in Committee of the Whole.

26. Amendments, whether in Committee or in Council, shall be submitted to the vote before the original motion, in the reverse order in which they are moved.

27. A motion for commitment, until it is decided, shall preclude all amendments to the main question.

28. A motion to postpone shall include a day to be named for the further consideration of the question.

29. A motion to lay on the table shall be taken without debate; when it prevails the subject matter shall not be revived during the session except by a two-thirds vote of the Council.

30. The "previous question" until it is decided shall preclude all amendments to the main question, and shall be put, without debate, in the following words: "Shall the main question be now put?" If this motion be resolved in the affirmative, the original question is to be put forthwith, without amendments or debate.

31. Whenever the presiding officer shall consider that a motion before the Council is contrary to the By-laws or inconsistent with the report or other matter to which it was intended to refer, it shall be his duty to rule it out of order.

Minutes of the Meeting  
OF THE  
MEDICAL COUNCIL OF ONTARIO  
JUNE, 1919  
*FIFTY-FOURTH ANNUAL SESSION*

---

FIRST DAY

The Annual Meeting of the Council for 1919 began to-day, Tuesday, June 24th, at the hour of 2 o'clock in the afternoon, in the Council Chamber, with Dr. Ferguson in the chair.

*Roll Call*

The Registrar called the roll, when the following members responded to the call: Drs. Addison, Arthur, Argue, Becker, Brodie, Connell, Cruickshank, Dales, Eccles, Emmerson, Farncomb, Ferguson, Sir James Grant, Griffin, Hamilton, Hardy, Jarvis, Kellam, King, J. M. MacCallum, S. McCallum, Routledge, Spankie, Stewart, Walters and Young.

ELECTION—DIVISION NO. 17.

The Registrar reported the resignation of Dr. W. E. Crain as the representative of Division No. 17. He also reported that an election was held, and the returning officer for the division, Dr. A. J. Macaulay, of Brockville, announced that Dr. R. N. Horton, of Brockville, had been elected by acclamation.

The President nominated a Credentials Committee, consisting of Drs. Kellam, Argue and Stewart. The Committee was approved by the Council. The Committee retired, examined the election returns, and reported Dr. R. N. Horton as being duly elected for Division No. 17.

Dr. Horton then took his seat in the Council.

*Retiring President's Address (DR. FERGUSON)*

Dr. Ferguson addressed the Council, reviewing matters concerning the College, its duties and obligations, and other matters coming within the province of the College.

“The year during which I have had the honor to preside over this Council has been a strenuous year, and some of the questions which engaged our attention unfortunately still remain unsettled. Chief among these questions are the many issues raised by the report of the Royal Commission. Although that report has been in the hands of the Government for over two years, no legislation based thereon has yet been brought before the legislature. Pending the submission of the new medical Bill, the Executive Committee, in conjunction with some members of the Legislative Committee, appeared before the Government on several occasions since our last session and presented our views in the interests of medical education and the protection of the public against charlatanism.

The Council having thus far done its duty in the premises, it is a question whether we should further prosecute these subjects before the Government or leave the responsibility of the issues with our legislators, after the example of the Ohio State Council. However, at the close of the recent session of the Legislature, the timely interference of your representatives averted the passing of such legislation as would have rendered the authority of the Medical Council abortive and nullified its very existence. This bill, we were assured, was an eleventh hour measure, hurriedly compiled under a misapprehension of the views and attitude of the medical profession. In consequence of our timely protest it was promptly withdrawn. The incident gave rise to an assurance that whatever medical legislation might hereafter be proposed, the representations of the medical profession would receive first consideration. The Council was moreover asked to formulate a series of recommendations at this, its next meeting, for the guidance of the Government in framing a medical bill at its next session. Under these circumstances I would recommend that a special committee be appointed forthwith for that purpose, or that the matter be referred to the Legislation Committee.

### *Medical Education*

It does not appear to me that the Council has been as progressive as it might have been in respect to medical education. Time was when the universities were put upon their mettle to make their curricula measure up to the requirements of the Council. Now, however, the universities set the pace, whether too rapid I do not say, and the Council is content to follow that lead. The curriculum of the College of Physicians and Surgeons is antiquated. For example, the examination requirements of the Council state that the work in the various subjects shall consist of from one to three courses, covering from fifteen to thirty teaching weeks. These specifications mean nothing unless the number

of hours allotted to each subject is specified. I endeavored more than once in committee to have this defect remedied, but failed from lack of support.

The Council has been lacking in initiative in medical education. For instance, two of the universities of the Province have adopted a six year course of study, and the third is, I believe, considering its adoption. This movement was never even discussed by this body, nor was any influence whatever brought to bear upon the subject. If the Council had raised the standard of matriculation, as it should have done, there would have been no occasion for a sixth year. Senior matriculation, with the science option, would have covered the subjects of chemistry, physics and biology, which are at present loaded on the medical curriculum. With the elimination of these subjects, the student would bring greater maturity to bear upon his work, and the early part of his course would not be occupied with subjects which are properly pre-medical. The Council should have taken part in the settlement of this question. If it had relegated the pre-medical subjects to the Arts and the Collegiates, where they belong, the medical colleges would have been satisfied with a five year course, and they would have been relieved of the necessity of providing an unduly long course of medical study, while the energies of students would have been concentrated upon work essentially medical and practical.

The executive has had a considerable number of applications from "overseas" students for matriculation standing and special licenses. These applications have been dealt with in a spirit of generosity in so far as they came within the "war-time" concessions recognized by the Council. With the advent of peace conditions, the Council will doubtless again adhere strictly to normal regulations, and aim at the maintenance of a high standard of medical education.

#### THE RELATIONS OF THE COUNCIL AND THE UNIVERSITIES

An effort has been made from time to time by the Provincial University to have the examinations of that body accepted by the College of Physicians and Surgeons as a licensing examination. In my judgment the Council should never give up the control of the curriculum and its own independent examinations. As a matter of fact, a reasonable concession has already been made to the universities in the acceptance by the Council of all the university examinations except those in the three major and practical subjects of medicine, surgery and obstetrics, and diseases of women. The Council is the one agency which through its curriculum can standardize the work of the universities, and conduct a licensing examination wholly disinterested, and possessing the essential of independence. This, in effect, was the conclusion

reached by the Commissioner in his investigation. The present system is working very satisfactorily, and any interference therewith would inevitably lead to disintegration and discord.

### *Reciprocal Relations With Candidates Outside the Dominion*

At the 1916 meeting of the Council a memorial was received from the University of Toronto regarding the discrimination involved in exacting one year's attendance in case of candidates outside the Dominion, otherwise eligible for our licentiate examination. This memorial arose from a protest raised against this restriction by the Education Committee of the American Medical Association. After due consideration the Education Committee of this Council recommended the elimination of this provision, and the recommendation was adopted without dissent by the Council. The profession generally congratulated us on the removal of an obnoxious barrier from the regulations and the officials of the American Medical Association expressed appreciation of our action. Nothing further was heard of this matter until a year ago, when the Education Committee quietly restored the provision, and it went through the Council apparently without consideration or discussion. I realize that I am making a belated protest about this matter, but I am convinced that the restoration of this provision was a very reactionary step, and out of keeping with the spirit of international fellowship that should obtain in these days among allied peoples, in matters ethical as well as political. It would do this Council credit now to revert once more to its former attitude upon this subject, and to remove this stigma of narrowness and provincialism from our regulations.

The question of reciprocal relations with "Accredited Colleges" in the United States has been dealt with in rather a niggardly spirit. Not satisfied with the acceptance of "Class A" medical colleges, our regulation sets up the limitation that only such colleges shall be acceptable, the standards of which are equivalent to the standards of this Council. We have no adequate means of comparing standards, and the classification of American Medical Colleges of the Council of Education of the American Medical Association is the only sane standard to adopt. Our regulation savors of pettifoggery.

### *The Workmen's Compensation Act*

Some of the regulations of the Board, rather than the Act itself, provide a source of considerable dissatisfaction to the medical profession. The schedule of fees, to which this Council a year ago gave a qualified approval, as being "upon the whole, satisfactory," is quoted in Form 92 of the Board as "approved by the College of Physicians and Surgeons of Ontario." The resolution

of the Council states that the schedule is, "upon the whole," satisfactory, implying that in some respects it is not satisfactory, while the circular of the Board makes it appear that it is satisfactory without qualification. The schedule, as amended a couple of years ago, is doubtless an improvement upon the original schedule, but it still contains some unwarranted restrictions. For example, under "Anæsthesia and Assistants," Form 92, the regulations of the Board provide that at hospital operations a doctor may administer anæsthesia **ONLY** when a house surgeon is not available; and that an assistant can be employed **ONLY** when considered necessary by the Board. Every doctor knows that oftentimes the duties of the anæsthetist are more critical than those of the operator; and if under the regulations the operator is obliged to utilize, it may be, an inexperienced or an unlicensed house surgeon, then the Board, and not the operator, should assume the risks attending the administration of such anæsthetic. With reference to the employment of an assistant only when considered necessary by the Board, such a regulation is absurd, as in the great majority of cases it is impracticable to consult the Board prior to an operation. These restrictions are entirely unreasonable, and should apply only in cases where such privileges are abused.

The Government, at the last session of the Legislature, made a very sane amendment to the Act, viz.: The abolishing of the one month's limitation for the compensation of medical services. This provision was so palpably unjust that the wonder is how it ever became incorporated in the Act. Your President took up this matter with the Government by personal correspondence in the absence of any opportunity of getting a Committee-Conference on the subject. The Board of Compensation itself, and many of the employers, went on record as opposed to the limitation imposed by this provision. There is one feature of the recent amendments to the Act that is decidedly unfair to the physician, viz.: That while an appeal from the decision of the Board is permitted in disputed accounts, that privilege is nullified by the rider that "no costs" are allowed to the appellant even when the appeal is sustained.

### *The Ontario Temperance Act*

The abuse of the privileges of the Ontario Temperance Act has been a source of chagrin and discredit to the profession. This subject was the occasion of a conference between the Government and the representatives of the Council. Neither the Civil Courts nor the Council have been able thus far to cope adequately with this abuse. Some improvement is anticipated under the recent amendments to the Act. Several cases, I understand, will come up before this session of the Council, in which the suspension or

cancelling of the licenses of the offenders will be recommended by the Discipline Committee.

The adoption of the recommendation will doubtless have a salutary effect. For the year ending April 30th, 1919, there were 73 prosecutions against 46 doctors under the Ontario Temperance Act, resulting in 58 convictions against 40 doctors, the fines ranging from \$10 to \$1,200. Six convictions were obtained against one man, four convictions against three others, three convictions against another, and two convictions against two others. In view of this damaging record before the courts, the Discipline Committee would appear to be charged with serious disciplinary duties. It will never do for this Council to confine its zeal to the prosecution of charlatanism outside the ranks of the profession, while men within the profession are permitted to besmirch its reputation by wholesale trafficking in liquor prescriptions. In this respect the reputation of the profession is largely in the keeping of the Disciplinary Committee.

Notwithstanding its alleged shortcomings, however, some of which I have not been slow to criticise, and in spite of the hostility of critics, some sincere no doubt, others merely captious, yet the Ontario Medical Council has a long record of usefulness to its credit; and, after an existence of over half a century, it stands to-day as our most potent agency in maintaining and regulating the standards of medical education in this Province, and in safeguarding the public against fads and charlatanism in the field of medicine.

I wish to say in conclusion, that the Executive Committee can scarcely over-estimate the services of the Registrar in the conduct of the interim work of the Council. I know not where a similar official could be found who does his work more systematically and thoroughly or with more tact and discretion than our Registrar, Dr. Aikins. I am sure that this expression of appreciation will find an echo in the person of every member of this Council. I further desire to express my thanks to every official and member with whom I have been associated for the unvarying courtesy and co-operation accorded me during the term of my Presidency.

Sir James Grant and Dr. Argue moved and seconded a vote of thanks to Dr. Ferguson for his address, and moved further that the same be published in the Annual Announcement. (Carried.)

Dr. Ferguson made appropriate acknowledgment.

## MOTIONS OF WHICH NOTICE WAS GIVEN

Dr. Cruickshank moved, seconded by Dr. Dales, that, "Whereas, it is now, and always has been, the object of our profession and this Council to serve and protect the public from incompetence and malpractice;

"Whereas, through the efforts of this Council, the public of this Province has been served for fifty years by as competent medical practitioners as any country in the world, and our licentiates have ranked among the highest, wherever they have gone, and,

"Whereas, our constitution and laws have formed the basis for legislation in many States of the Union, and a similar one is sought for by physicians in Great Britain, and,

"Whereas, in spite of this the growth of democratic sentiment in this Province has led the majority of the people to regard our power to say who shall practise medicine as evidence that we are a self-seeking combine or trust, and,

"Whereas, no law, however good and beneficent, can be effectively enforced unless supported by overwhelming public sentiment,

"Therefore, this Council is of the opinion that the power to say who shall be permitted to practise the art of healing should be taken over by the people themselves through their representatives in the Legislature, and Department of Education."

Dr. Brodie moved, seconded by Dr. Walters, that all words after "Great Britain" be omitted, and, in lieu thereof, to be inserted "That licensing of untrained and unqualified persons to treat disease is a menace, and an injury to the public, and is neither inimical to, nor affects, the welfare of the medical profession, and the Legislature being responsible for any act that is injurious to public health, and not the medical profession,

"Be it therefore resolved, that the Council of the College of Physicians and Surgeons of Ontario are not justified in taking any action, except on solicitation from the Government, respecting public health legislation, as the elected representatives of the people are accountable for public health conditions."

After discussion, Drs. Brodie and Walters asked permission to withdraw their amendment. The Council granted request.

Dr. Cruickshank's motion was declared lost.

## NOTICE OF MOTION

Permission was granted by Council to introduce notice of motion by Dr. Kellam, re manufacture of salvarsan.

MacCallum, "Whereas, the Commission appointed by the British Government and presided over by Mr. Justice Younger, to enquire into atrocities committed on British prisoners in Germany, have made reports which show the treatment accorded British prisoners by German physicians and surgeons was cruel and barbarous, and,

"Whereas, in the conquered portions of France and Belgium, positive evidence shows that the treatment of the civil population by the medical profession of Germany was inhuman and uncivilized,

"Be it therefore resolved, that the Registrar of this Council is hereby instructed to strike from the list of attached or affiliated colleges any college that recognizes German medical certificates."

Dr. Hardy moved, in amendment, that after the words, "That the Registrar of this Council is hereby instructed" be inserted the following words, "not to accept certificates of German origin, for any privileges before this College."

"Whereas this Council has recently reaffirmed its opinion that there should be one qualification for the whole of Canada, and,

"Whereas the examinations of the Canada Medical Council are now well established and recognized as of a standard at least as high as that of any Provincial Board.

"Resolved that the Executive of this Council be now authorized to complete an agreement with the Medical Council of Canada to substitute the examinations of the Medical Council of Canada for that of this Council upon the following basis:

*Report of Representatives to Canada Medical Council*

The report of the representatives of this Council to the Canada Medical Council was read.

Upon motion of Dr. Spankie, seconded by Dr. Griffin, the representatives in question, the report was ordered adopted and filed.

The report is as follows:

Toronto, Ont., June 25th, 1919.

To the President and Members of the Council of the College of Physicians and Surgeons of Ontario:

Gentlemen:—Your representatives on the Medical Council of Canada beg to report as follows:

1. The Seventh Annual Meeting of the Medical Council of Canada was held at the City of Ottawa, on the 17th and 18th days of June, 1919, and was attended by twenty-six of the thirty members constituting the Council.

2. A complete official copy of the Minutes of the Meeting is appended to this Report. These Minutes include the report of the Registrar for the year; also the reports of the Executive Committee, the Finance Committee and other committees of the Council.

3. The Examination of the Council in 1920 will be extended to Vancouver, B.C. The Provincial Medical Council of British Columbia is discontinuing its Examination and accepting the Examination of the Medical Council of Canada for registration in British Columbia.

4. Examinations will be held as follows:

1919—At Montréal and Halifax on the Second Tuesday in December, 1919.

1920—At Toronto, Winnipeg and Vancouver on the Third Tuesday in June, 1920.

5. Regarding the Examinations of the Council it is of interest to note that the Chairman of the Board of Examiners (Dr. Ferguson) in his Report to Council refers to the striking similarity in the results in the various subjects, indicating a generally uniform standard of valuation on the part of the examiners in the several departments, and further adds: "These results should be satisfactory to the prospective candidates at subsequent examinations. They show that with honest preparation and reasonable efficiency, no competent student need be deterred through fear of failure from taking this Examination. The protection of the public from incompetent practitioners is the sole aim of the Examination."

In this connection also the retiring President (Dr. Walker) expressed his satisfaction at the fact that the number of candidates presenting themselves for the Examination of the Council was increasing considerably.

6. The Executive Committee reported favorably on the proposal for reciprocity with Great Britain and other countries, and

authorized the Counsel to prepare an Amendment to the Canada Medical Act accordingly; and the Registrar was instructed to send a copy of such proposed amendment to each Provincial Council in order to obtain the requisite consent for an amendment to the Canada Medical Act.

All of which is respectfully submitted.

(Sgd.) W. SPANKIE,  
H. S. GRIFFIN.

As arising out of foregoing report, Dr. Connell moved, seconded by Dr. Spankie, "That this Council will approve an amendment to the Canada Medical Act, to empower the Medical Council of Canada to enter into reciprocal relations with Great Britain and foreign countries; that the consent be subject to the opinion of the solicitor of the Council, that it does not interfere with any rights or privileges of this Council."

When the motion was put it was declared carried. Upon this, two members asked that the vote be recorded. The vote, as recorded, showed eleven for and ten against the motion. The motion was then declared as carried.

### *Adjournment*

Upon motion of Dr. Kellam, the Council adjourned to meet at 10 o'clock to-morrow morning.

There were very few complaints regarding unlicensed practitioners during the year. There were four cases of foreigners treating Venereal disease in Toronto—one of them, after securing hundreds of dollars, left the Province before his dupes became aware of the fact that they were being imposed upon.

The other three had the highest penalty imposed upon them. One of them was unable to pay the fine, and had to go to jail. The Police Magistrates in Toronto, I am pleased to say, look upon them as the worst kind of quacks.

Your obedient servant,

(Sgd) JOHN FYFE, Prosecutor.

NOTICES OF MOTION

Drs. Sir James Grant and Argue.—Motion re special rewards to medical officers in the war.

*Canada Medical Council and C.P.S.O. Fees*

*Returned Field Officers and Special Course of Training*

Dr. King moved, seconded by Dr. Arthur, "Whereas an emergency arose at the outbreak of the war whereby the Medical Services were unable to secure sufficient fully qualified and experienced physicians and surgeons to meet the army requirements, and

"Whereas it became necessary to take into the Canadian Army Medical Corps doctors who had never practised, those recently graduated, as well as those in the final years, to meet the needs of the service, and

"Whereas, those graduates and under-graduates willingly and without assurance of future consideration toward their education, assumed the responsibilities of service, and have done most excellent and meritorious work that was imperative, and

"Whereas they have lost touch with all subjects not actually connected with war service, such as diseases of children, midwifery, etc., etc., and either medicine or surgery, dependent on which branch of the service they were attached to, and

"Whereas in consequence of such service, they will be materially handicapped in their general practice, and the public will be to a very considerable extent dependent on men who have been removed for months and years from close association with all subjects of the medical curriculum, this just at the most important period of their career, the period of beginning and developing their confidence with the public,

"Be it resolved that in the public interests all medical officers who have been in practice less than one year, or just graduated, or were undergraduates at the time of their enlistment, should be required to take a post-graduate course of at least six months, and to make this possible a special grant by the Dominion Government of five hundred dollars be made to each, together with all hospital and university fees necessary to attain this course.

"That this is in the interest of the general public, because to take a person just graduated, or an under-graduate, and remove him from the atmosphere of hospital association-practice condition, and put him where reading or study is impossible, or where

his activities are solely devoted to one restricted subject for months at a time, is to place him entirely out of touch with the average case of sickness met with in civilian practice, and further

“Resolved, that the Council of the College of Physicians and Surgeons of Ontario present the appeal to the Premier of the Dominion of Canada (or the Governor-General), the Director-General of Medical Services, drawing their attention to the fact that in our judgment this should apply to all the provinces in the Dominion, and further, that immediate action on this subject should be taken, so that these returned men should be able to begin their post-graduate course in the early Fall, or at the beginning of the Fall session.

“Conditions to be imposed to see that this post-graduate course is taken at well recognized schools and hospitals that meet with the approval of the Government (The Director-General of Medical Services), the Provincial Councils, or the Schools of Great Britain.” (Carried.)

### *Ontario Temperance Act*

Dr. Stewart moved, seconded by Dr. Griffin, “That the Ontario Medical Council desires to express its strong disapproval of the provision in the Ontario Temperance Act, whereby the medical profession of Ontario is made the means through which the public may obtain alcoholic liquor, and that a copy of this resolution be forwarded by the Registrar of this Council to the Government of Ontario and to the Board of License Commissioners.”

#### *Report of Education Committee*

Toronto, Ontario,

To the President and Members of the

College of Physicians and Surgeons of Ontario.

Gentlemen,—The Education Committee begs to report as follows:

1. With reference to the communication from the University of Toronto relative to the adoption of a Six Year Course, your Committee recommends that a small sub-committee be appointed to revise the Curriculum of this College during the coming year, and to report at the next meeting of the Council, and it suggests that the sub-committee consist of Drs. Addison, Ferguson and Connell.

2. An application from the Hahnemann College of Chicago, to be listed as an accredited College, was referred to the Homoeopathic members for report.

3. A communication from the State Board of Michigan relative to a change in method of reciprocity is too involved to be dealt with in the time at the disposal of your Committee, and it is recommended that it be referred to the sub-Committee of Clause One for their consideration and report.

4. Your Committee recommends that Examinations be held in Toronto on the second Tuesday in November, 1919, and in Toronto, London and Kingston on the first Tuesday in June, 1920.

5. It is recommended that the following Examiners be appointed:

Surgery.—Dr. E. L. Hodgins, London, Ont.; Dr. D. E. Robertson, Toronto, Ont.

Medicine.—Dr. W. T. Connell, Kingston, Ont.; Dr. J. P. Vrooman, Napanee, Ont.

On motion of Dr. Hardy, seconded by Dr. Addison, the report was adopted.

#### *Report of Special Committee re Presidential Address*

The report of the Special Committee appointed to deal with the Presidential address was then read.

Dr. Griffin moved, and Dr. King seconded, the adoption of the same. (Carried.)

The report follows:

Toronto, Ont.,

June 26th, 1919.

To the President and Members of the

College of Physicians and Surgeons of Ontario.

Gentlemen,—Your Committee, to whom was committed the consideration of the President's address, begs to express their

appreciation of the earnestness and devotion to the best interests of the people therein indicated. We congratulate the President, Executive and Legislative Committees in preventing premature legislation that would have imperilled the safety of the public, and would have been derogatory to the dignity and standing of the profession. The importance of constant vigilance, as pointed out by the President in his address, is clearly indicated, and we concur in his suggestion that the Legislative Committee of the Council should keep in constant touch with all proposed legislative measures.

### *Medical Education*

This Committee cannot agree with the President in regard to the strictures which he has made with reference to medical education. The duty of the Council is to see that the public are supplied with doctors who are properly equipped from a clinical or practical point of view. Our examinations are for the express purpose of seeing that students presenting themselves should be fully and practically trained for professional practice. Clinical instruction, as well as thorough training in laboratory methods, are necessary, but the clinical (practical) methods must predominate. The course, as now prescribed, is intended to develop clinical training, and is better calculated to turn out useful practitioners than a longer time devoted to sciences and studies of less practical application.

The universities should be encouraged to continue post-graduate work for those who wish to prosecute their studies further and to qualify themselves for higher scholastic attainment. Obviously our most important function is to see that licentiates are thoroughly qualified to be intrusted with the lives and health of the public.

Your Committee concurs in the opinion that the Council has shown wisdom in endeavoring to maintain their supervision of all candidates for license, and agrees with the suggestion of the President that the one year study at present prescribed for foreign students desirous to qualify through our examinations should be eliminated.

### *Reciprocal Relations*

The President, in referring to reciprocal relations with accredited Colleges in the United States, overlooked the fact that the standard was set from a report by this Council on the curricula of all American Colleges, and not especially restricted to the so-called Class A Colleges.

### *Workmen's Compensation Act*

The remarks of the President in reference to the Workmen's Compensation Board, are timely, and your Committee believe meet the approval of the Council.

### *Ontario Temperance Act*

The reference to the Ontario Temperance Act touches a matter that at present engages the most earnest consideration of all medical men.

Your Committee believe that the vast majority of our licentiates endeavor to live up to the requirements of the law, and that the Council will deal efficiently with those who in breaking the law cater to unworthy appetites and bring discredit upon an honorable profession.

All of which is respectfully submitted,

(Sgd) H. S. GRIFFIN, Chairman of Committee.  
(Carried.)

### *Report of Rules and Regulations Committee*

Dr. King submitted the report of the Committee on Rules and Regulations, including the following recommendation:

"Inasmuch as arrears of assessment dues have accumulated, the Registrar be instructed to collect from such members whose dues are three years or more overdue."

The by-laws contained in the report were then taken as read a first time.

On motion of Dr. King, seconded by Dr. Argue, the Council went into Committee of the Whole to consider the report clause by clause.

At the request of the President the chair was taken by Dr. King.

The report was then read clause by clause, when, upon motion of Dr. Stewart, seconded by Dr. Cruickshank, the Committee rose and the Chairman reported the by-laws as adopted in Committee of the Whole, the President having resumed the chair.

Dr. King then moved, seconded by Dr. Argue, that the report of the Rules and Regulations Committee, as adopted in Committee of the Whole, be now read a third time and adopted in Council. (Carried.)

(For by-laws see page 72 of Annual Announcement.)

### *Report of Registration Committee*

The Report of the Registration Committee was read. Dr. Cruickshank moved, and Dr. Hardy seconded its adoption. (Carried.)

The report is as follows:

(Carried.)

*Sir James Grant, and Orders of the Empire*

Under these circumstances we are of opinion that some worthy recognition, such as Orders of 'The British Empire,' should be meritoriously conferred on distinguished members of the "Canadian Medical Profession," thus marking appreciation of services of the highest possible character, in guarding the interests of 'King and Country.' " (Carried.)

*Special Committee re Returned Medical Officers*

Moved by Dr. Argue, seconded by Dr. Griffin, that "The President, Dr. King and the mover and seconder, be a Committee to present the report on post graduate assistance to Field Officers." (Carried.)

*Minutes Read and Confirmed*

The minutes of this Session were then read and confirmed.

*Vote of Thanks to President*

Sir James Grant then asked the Council, in a vote of thanks, to express to the President its appreciation of the conspicuous ability and the uniform courtesy displayed by him in discharging the duties of his office.

Dr. Farncomb seconded the motion, which was then submitted and carried amid applause.

Dr. Emmerson made appropriate acknowledgment of the same.
